

FOR IMMEDIATE RELEASE

VALIDATION TECHNOLOGIES, INC. ® (www.validation.org) at INTERPHEX ASIA 2008 Exhibition

from June 1st through June 3rd 2008

SINGAPORE (INTERPHEX ASIA 2008) – June, 2008 – Validation Technologies, Inc. will be demonstrating its broad range of validation and technical consultant services to the pharmaceutical, biotechnology and medical device manufacturers at INTERPHEX ASIA 2008 from June 1st through June 3rd 2008.

Validation Technologies, Inc. (An ISO 9001:2000 Certified Company) Provides Validation, Technical, and Commissioning Services to the Pharmaceutical, Biotechnology and Medical Device Industries. We have the expertise and commitment to provide the superior service required to meet all of your validation and compliance needs.

VTI offers a full list of services including computer validation, cleaning validation, equipment/facility qualification process validation, clean room certification, temperature mapping and much more. Dedication to quality, personalized support and the success of your projects are the foundation of our company with offices in San Diego, Los Angeles, San Francisco, Scottsdale, Boston, New Jersey, Philadelphia, Puerto Rico, Toronto and soon to be open Asian Office.

For a demonstration of how VTI can help pharmaceutical and other life sciences companies improve validation efficiencies, increase speed to market, reduce costs, and meet regulatory requirements, please visit the Validation Technologies, Inc (VTI) booth at the INTERPHEX ASIA 2008 Exhibition.
